

Research / Scholarship

As a new offering, this program is currently *being developed*.

The Research/Scholarship Program is intended to support resident(s) in development of expertise and skills pertaining to research and scholarly work. Our hope is that the inaugural resident will continue to flesh out the program in partnership with our Program Director.

Activities may include but are not limited to:

- Lead a research project with access to mentorship and resources
- Attend primary care research conference (present if possible)
- Attend DFM research offerings for skill development
- Consider formal courses to upskill
- Could be integrated with relevant clinical experiences
- Seek teaching opportunities

Time available: 12 months
